Dyna Antibody Diluent

Catalog #:

D0001.500m	500 mL of ready to use diluent
D0001.1L	1 L of ready to use diluent
D0001.10L	10 L of ready to use diluent

Description:

Dyna Antibody Diluent is prepared for use in immunochemical procedures. Antibodies can be diluted directly in this phosphate buffered reagent and can be stored for up to 18 months when refrigerated (extremely high dilutions will result in reduced shelf life). Dilute primary antibodies, or biotinylated antibodies in this reagent.

Appearance:

Transparent liquid, slightly yellow. Discard if reagent becomes cloudy. Green coloring also available upon request.

pH:

7.4±0.1

Uses:

All products sold by Dyna Scientific are intended for research use only unless otherwise indicated. This product is not intended for diagnostic or drug purposes.

Warranty and Liability: Dyna Scientific is committed to providing the highest quality reagents at competitive prices. Dyna Scientific warrants that the products meet or exceed the performance standards described in the product specification sheets. If you are not completely satisfied with any product, our policy is to replace the product or credit the full purchase price and delivery charge. No other warranties of any kind, expressed or implied are provided by Dyna Scientific. Dyna Scientific's liability shall not exceed the purchase price of the product. Dyna Scientific shall have no liability for direct, indirect, consequential or incidental damages arising from the use, results of use, or inability to use its Products.

Immunochemical procedures.

Antibody diluent.

Limitations:

Do not use past expiration date.

Storage:

Store at 2-8°C. Product is stable for 24 months from the date of manufacture.

Procedure:

1. Dilute antibody directly in this reagent.
2. Store diluted antibody at 2-8°.

Precautions:

Do not pipette by mouth.

Avoid contact with skin and eyes.

Observe all federal, state and local environmental regulations regarding disposal.
